Zinc Die Casting

Deco Products

is a full service zinc die casting company, offering a broad range of secondary operations. We cast, machine, assemble, and powder coat as well as coordinate plating. Our intention is to supply anything from cast items to complete sub-assemblies.

People

Deco Products is much more than buildings and machines. The real Deco resides in the spirit and long-term of its more than 340 employees. Their talents and ingenuity have made this company a valuable supplier-partner to customers from coast to coast.

Design & Engineering

Deco Products has positioned itself in the unique role of a full-service zinc die cast supplier. It is Deco's continuing objective to supply machined, powder coated, plated and assembled zinc die castings ready for the customer's use. This, and our dedication to continuous improvement, has earned the praise of many nationally and internationally known companies.

Powder Coating

Deco installed its first powder coating line in 1972. Today Deco powder coats millions of castings annually utilizing state-of-the-art powder coating technology in a wide choice of colors.
